

PROJECT SYNOPSIS

Project Title :- BIT Gaya Collage Website

Computer Science Department

Session :- 2023 – 2026

PRESENTED BY

1. Manushankar Kr - (611741823020)
2. Mohan Kr - (611741823025)
3. MD Kaif - (611741823035)
4. Sandeep Kr - (611741823028)

UNDER THE GUIDANCE

1. Er. Shambhu Chaupal
2. Ruchi Kumari (Mentor)

01. INTRODUCTION

- ▶ In today's digital era, having an online presence is very important for every educational institution. A college website serves as a platform where students, parents, and teachers can easily access important information about the college.
- ▶ In this project, I have developed a responsive and user-friendly College Website that provides details about the college, courses offered, faculty information, and contact details.
- ▶ The website is designed using HTML, CSS, and JavaScript. Responsive design techniques such as media queries are used to ensure that the website works properly on both desktop and mobile devices.
- ▶ The main objective of this project was to create a clean, simple, and easy-to-navigate website interface.

02. PROJECT OBJECTIVE

- ▶ The main objective of this project is to design and develop a responsive and user-friendly College Website that provides complete and accurate information about the institution.
- ▶ The specific objectives of this project are:
 - ❑ To create an attractive and well-structured website layout.
 - ❑ To provide detailed information about the college, courses, and faculty.
 - ❑ To ensure easy navigation for users.
 - ❑ To make the website fully responsive for mobile and desktop devices.
 - ❑ To improve the digital presence of the college.

03. FEATURE OF WEBSITE

- **Home Page:** Displays important announcements and overview of the college.
- **Student Document Storage:** Students can temporarily upload and store their important documents securely.
- **Courses & Faculty Section:** Provides details about courses, departments, and faculty members.
- **Important Links Section:** Direct links to DIGILOCKER, MNSSBY and SBTE official websites for student convenience.
- **Contact Page:** Provides contact details and other communication information.
- **Responsive Design:** Fully mobile-friendly and works smoothly on all devices.
- **Easy Navigation:** Simple and user-friendly menu system.

04. TECHNOLOGY & METHODOLOGY

TECHNOLOGY

- **HTML:** Used to create the basic structure of the website.
- **CSS:** Used for styling, layout design, and responsive design.
- **JavaScript:** Used to add interactivity and dynamic features.
- **Media Queries:** Used to make the website responsive for mobile and desktop devices.

METHODOLOGY

- **Requirement Analysis:** Collected information about what features the college website should include.
- **Planning & Design:** Designed the layout structure including navbar, sections, and footer.
- **Development:** Created the website using HTML, CSS, and JavaScript.
- **Testing:** Tested the website on different screen sizes (mobile and desktop).
- **Implementation:** Finalized and presented the complete working website.

05. REQUIRMENT OF HARDWARE & SOFTWARE

Hardware Requirment

- Computer / Laptop
- Minimum 8 GB RAM
- Intel i5 Processor or higher
- 500 GB Hard Disk (or SSD recommended)
- Keyboard and Mouse
- Internet Connection

Software Requirment

- **Operating System:** Windows 10 / Windows 11
- **Web Browser:** Google Chrome / Microsoft Edge
- **Code Editor:** VS Code / Notepad++
- HTML, CSS, JavaScript (for development)

06. PROJECT TIME LINE

Phase	Duration
Requirement Analysis	1 week
Design & Wireframes	3 days
Frontend Development	2 week
Testing & Debugging	2 days
Deployment & Documentation	1 week

07. CONCLUSION

- The College Website project was successfully designed and developed using HTML, CSS, and JavaScript. The website provides complete and organized information about the college, including courses, faculty details, important links, and student document storage.
- The system is responsive and works smoothly on both desktop and mobile devices. It improves communication, accessibility, and the overall digital presence of the institution.
- This project helped in enhancing practical knowledge of web development and responsive design techniques.

THANK YOU
